Subject looking for some help with some mid-year reporting for
Richardson Flats

Hi Kathy-

Long time no talk about Richardson Flats-- not because I'm not interested, but because I've been stuck with a basically impossible deadline to get a major investigation report out of our office. Just as a heads-up, I have begun to draft a letter to Kerry (and I need to give him a call), but in the meantime, I'm hoping you might be able to help me with some reporting I have to do.

We have to do periodic reports to the DOI NRDA office on the progress of our cases, and here's one of the questions I have to answer:

Identify cleanup activities (i.e., investigations, studies, removals, or remedies) implemented since the last report and by whom.
With regard to Richardson Flat, I wonder if you could write me up a brief paragraph about where they are in the cleanup process since about Sept. 1, 2005. i.e., where in the negotiation/consent decree process, any remedial feasibility investigations, any actual dirt-moving, etc. Even a couple of sentences or a bullet list would help me out.

I'm also including a milestones spreadsheet that I previously asked Peggy for some help with. It was way down on her list and we never connected on it. It should open up to the second worksheet, which is "Response". Could you please take a look at it and let me know if it's something that you could provide dates for? I'm hoping that you have access to some sort of EPA database that will make coming up with the dates they're looking for a little easier?

please feel free to give me a call if you have any questions or want to discuss anything.

thanks!

Chris
